

ISO 26000 and the global social responsibility agenda

International Conference

Stockholm 20 October 2015

SIS, Swedish Standards Institute, invites you to this international conference with focus on ISO 26000, Guidance on social responsibility. The aim of the conference is to exchange information and inspiration on the trends and use of the standard.

The conference is open to all and will gather stakeholders from many countries to exchange experiences and discuss upcoming developments related to ISO 26000 in particular and social responsibility in general. Target audience includes:

- sustainability professionals in all types of organizations, public or private
- those interested in other ISO standards related to sustainability and social responsibility, for example ISO/CD 20400 Sustainable procurement
- those interested in social responsibility in practice from around the world

Extract from the program

- ISO 26000 status
- Social responsibility in practice
- ISO 26000 together with other standards and initiatives
- Sustainable procurement
- UN Sustainable Development Goals
- Future developments
